YOUTH WANTED HERE SHOT BY OAK POLICE Scores Killed As Cyclone Razes Bulgaria City

WALSH MAY WITHDRAW FROM RACE

WASHINGTON, May 2.—The unexpected victory of Governor Al Smith and the large popular vote polled by Herbert Hoover in California primaries left them entrenched as the leading candidates for the democratic and republican presidential nominations.

Because of its decisiveness, the triumph of Smith over Reed and Walsh, his most vigorous opponents, undoubtedly will give impetus to his campaign.

It was believed here today that Walsh, who ran third behind

Airmen Welcomed

Smith and Reed, may withdraw his name. Walsh declined to comment.

While the California primaries may have proved a disappointment to Senator James Reed, his political friends declare it has in no way influenced his determination to stay in the running to "the bitter end."

A solemn ritual, backed by the strains of the national anthem, was followed.

Ad this is in Pinole, in event occurring 50 years from July 4, 1878. The flag, raised to the top of the flagpole in the school yard was purchased by popular subscription.

SEEK CLOSING OF 'BEER BARN'

Abatement proceedings yesterday were commenced in the Alameda court, while federal authorities launched their investigation into a "beer barn" adjoining the home of Police Chief Carey or Emeryville, which was the subject of a raid Tuesday when 2000 bottles of beer were confiscated.

It is understood that U. S. Attorney Haisfield will place the matter before the grand jury.

The abatement proceedings filed by District Attorney Warren of Alameda county named James Carey, son of the police chief, as the owner of the barn, at 1623 Forty-seventh street, Emeryville.

According to Warren's report, Jimmy Reese Oakland ball player, summoned his father-in-law, Chief Carey, when this dry squad attempted to enter the barn.

"Big Bill" Haywood Reported Dying

MOSCOW, May 2.—William D. ("Big Bill") Haywood, former Chicago leader of the Industrial Workers of the World, who has been seriously ill in the Kremlin hospital, suffered a paralytic stroke last night and was sinking rapidly today.

"RATHER DIE" SAYS LAD AS ARREST LOOMS

Sought on a bench warrant issued by the Richmond police court when he failed to appear on a charge of speeding, Clarence "Bud" Rosenkrantz, son of the notorious bad check passer, Evelyn Rosenkrantz, was yesterday shot by Police Inspector William Marshal when the youth attempted to escape by fleeing across roof tops near his home, 114 East Fourteenth street, Oakland.

Officers approached the home to arrest Rosenkrantz, who is 17, for failing to answer a charge of speeding on February 17. His grandmother, Mrs. J. A. Mahoney, told the officers he was not at home.

Marshal climbed onto a fire escape and saw Rosenkrantz on the roof.

"Stop, or I'll shoot," warned the officer.

"I'd rather be dead anyway, go ahead and shoot," was Rosenkrantz' defiant answer.

Marshal leveled his revolver and pulled the trigger. The bullet entered the youth's thigh, traveled down his leg and lodged in his foot.

With ropes and ladders the injured boy was lowered to the ground and taken to Highland hospital.

After the arrest it was found that the boy was wanted, under the name of Clarence Reed, for forgery.

A warrant for his arrest, issued in San Francisco, charges that on November 15 he cashed a money order for \$20 in the Oakland postoffice. The order was made out to Billy Bradbury.

He is also wanted under the name of Clarence Allen, for the theft of an automobile in Los Angeles, police say. This charge was dropped, however, in view of the federal charge of forgery.

Evelyn Rosenkrantz, the boy's mother, became hysterical in the Alameda county jail when informed of the arrest and shooting. She hurled a pair of heels at the matron and flew at three jailers. It took them fifteen minutes to subdue her.

When young Rosenkrantz recovered from the gunshot wound he will be arraigned before United States Commissioner Frank O. Nedecker in Oakland, then brought to San Francisco for trial in the federal court.

Today the Rev. Clarkson said the church would be used as his home and that the congregation would have to meet elsewhere.

TOOLS FOR THE SHOP HARDWARE FOR THE HOME

There is such a small price difference between the disappointing and the satisfying kind of hardware that it never pays to take a chance. Manufacturers of quality hardware generally sell to hardware stores exclusively, and that is a very good reason why it pays to shop there. An article must be up to standard to meet requirements of stores advertising.

OFFICIAL PAPER OF THE CITY OF RICHMOND, CAL.

THURSDAY, MAY 3, 1928.

MISS SEARS' RECORD HIKE

Miss Eleanor Sears hung up a new record and a nice lot of pleasant notoriety by hiking 74 miles from Newport to Boston in record time.

While Miss Sears is a noted society woman, she showed that she has not permitted her position in life to interfere with her physical well-being.

For part of her strenuous jaunt she plodded along at a rapid gait through a drenching downpour of rain. Mile after mile was reeled off, the total distance being covered in ten minutes less than seventeen hours.

This little episode should be seriously considered by every person interested in keeping his body fit.

For walking is an exercise that is open to all.

No investment whatever is required to step out into the clean fresh air and use nature's own processes for building health and vivid vitality.

A good vigorous walk can do more to wipe out the fatigues of a day in an office or shop than anything else. It is a tonic that has no peer. Unfortunately ease of transit has reduced the impulse to walk.

It is so simple for the average city dweller to step into a street car or a taxi-cab that all too often leg muscles are not used for covering even short distances.

The use of mechanical conveyance in too large doses is an unmitigated evil.

By rising earlier than customary in the morning it will be possible for any one to walk all the way to his work or to cover several miles of the way.

This exercise regularly taken will make sluggish pulses throb with a new impulse of dynamic energy.

It will tone the body against the fatigues of the routine of desk or counter.

It will store up reserves of energy to fight off de-vitalizing sicknesses.

It will make the body literally hum with a tingling of irrepressible buoyancy.

It will help build success as well as health; for the average failure in life is the person whose body is out of tune with nature.

Follow Eleanor Sears' example and you will win rewards in added vigor of far more importance than any mere publicity might be.

RESULT OF HIGH TENSION

The collapse and death of Senator Frank B. Willis of Ohio was undoubtedly due in large measure to the high tension of his campaign for the presidential nomination.

In the effort to win delegates away from Herbert Hoover, Mr. Willis threw the energy of his heart and nerves into the conflict.

He never relaxed.

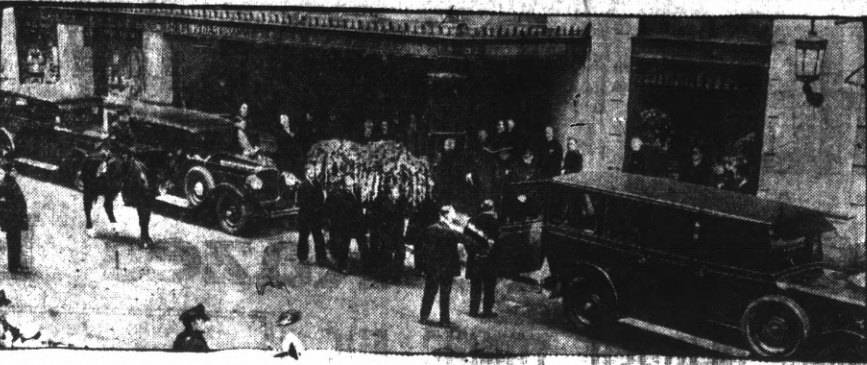

He was constantly at high pitch.

He failed to observe the fundamental laws of safeguarding his health.

Suddenly in the emotion preceding a public meeting that meant much to his cause, he dropped dead.

His untimely fate should be a warning to others.

Affairs of the Heart and Your Marriage Problems

Patricia Lee

Patricia Lee answers questions relating to problems of married life. Names and address should be added to letters as a mark of good faith but will not be published. Readers who desire private answers should include a stamped self-addressed envelope and 10 cents in coin to cover cost of typing, etc. Because of space limitations it is not possible to print answers to all letters received, and readers who wish an early reply should take advantage of this special service. On account of the large quantity of mail coming to this department, about ten days should be allowed for a reply. Write to Patricia Lee, care of this paper.

Dear Patricia Lee:

I have just returned from a week's visit with my father and mother. My husband's aunts, uncles and cousins live only a mile from my place. Because I didn't visit them while I was home my husband was very indignant. I did call on him, however, when he came out over the week end. Now, Miss Lee, my husband's people do not treat me well and have intimated that they do not want me to come. But they do not say this in my husband's presence. They have said the most unkind things about me, and one aunt suggests that we separate every time I go there. We have been married fourteen years and have a daughter twelve. I am nearly heart-broken and my husband won't allow me to say one word about his folks. The hardest thing to bear is that my husband says mean, cutting things to me in front of them. Shall I refuse to go there with him?—Gertrude.

Dear Gertrude:

Every bride's litany ought to begin "From my in-laws and their ways, good Lord, deliver me!" Certainly there is no reason why you should visit them if, as you say, they have shown you plainly that you are unwelcome. I can sympathize with you concerning the strained relations that may result with your husband. But you are having difficulty anyway, aren't you? This way neither you nor your husband is satisfied. So you might as well take a firm stand now and refuse to be placed in embarrassing positions merely to satisfy the conventions. You have tried for fourteen years; I think you deserve to have your own way for a while.

How To Earn Money!

The enclosed song was never on the market. I wrote the words and it cost me \$40 to have the music set. Do you think any of the broad-casting stations would pay for the use of the song?—C. E.

"No, I'm pretty sure they wouldn't." The broadcasting stations would consider that they were giving you free publicity and that would more than justify them in using it. Don't try to write songs unless you know the game; it's one of the hardest to break into.

Vigorous Health

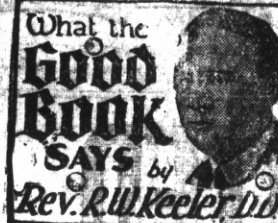

Exercise affects the circulation more directly and immediately than any other function of the body though all functions are beneficially influenced by muscular activity. When a muscle moves it contracts and as it contracts pressure is brought to bear on the blood vessels passing through it and near it and the blood is squeezed out. As the muscle relaxes new blood is allowed to flow in. It can thus readily be seen that when a large number of muscles are working there is a marked acceleration of the circulation.

As the blood is pushed more rapidly toward the heart and as a demand is made for more blood in the muscles to supply building material to repair the cells broken down by exercise the heart begins to beat more rapidly and if the demand is great enough it will dilate so as to accommodate more blood. The more rapid heart action sends more blood to the lungs for purification and breathing becomes quicker. The mechanical effects of breathing due to the movement of the ribs and diaphragm still further accelerates the circulation. This increase in circulation naturally sends more blood to every part of the body and this means better nutrition and elimination for every part. An active circulation is almost a guarantee of good health.

I have been reading about the meat eating experiments conducted by Mr. Steinmann, the explorer. He found that a man who ate meat had been of any value. The experiment has been of great value to the meat packers, but not to the man who has lived on an exclusive meat diet for definite periods before Mr. Steinmann attempted it. It is not possible, however, to live on meat indefinitely unless the bones, blood and organs are consumed as well as the flesh. Even the most rabid meat eaters would hardly be ready to do this. Whether or not a person should eat meat depends upon their particular type and stage of evolution. Most people can eat meat in moderation and in proper combination without any very bad effects. There seems to be an erroneous idea floating around that we condemn meat under any and all circumstances.

When I am to do some writing or to meet some people my hands and face perspire and I feel as though I am full of steam heat. Please advise. —NICK.

Such symptoms are generally due to toxemia, plus an inferiority sense. Naturally the first thing to do is to cleanse the system by taking a fruit diet for five days or so, with daily enemas after which a strictly natural diet is followed with plenty of raw foods so as to adequately nourish the nerves and all tissues of the body. Progressive exercise is used, as the more physical strength one has the less will he be inclined to fear anything. In addition to the physical measures, relaxation and auto-suggestion is practiced frequently. Affirmations of peace, power, health, strength and confidence are used. All energy wasting habits are avoided.

School nurse says all girls should know this

TALKING to a roomful of high school girls on personal hygiene, an experienced district nurse said: "One of the basic rules of health for girls is to keep the system functioning naturally at all times. Normal exercise and diet habits should be encouraged. But when necessary there's no harm in taking nujol, since it works mechanically and can't disturb the normal functions of any organ of the body. Particularly with girls, there are times when nujol should always be taken. Take a spoonful every night for a few days. It's a thoroughly safe and harmless method. It won't cause distress or gas pains or griping."

Nujol is different from any other substance. It contains no drugs or medicine. It can be taken safely no matter how you are feeling because it is so pure and harmless. And, it works so easily. Every woman should keep a bottle on hand. Every druggist has this remarkable substance. Get the genuine, to attend.

POOR SHAVES MUST GO!

New "VALET" Blade is Changing Shaving Habit of the Nation

For years men have been complaining about poor shaves and poor blade service. The introduction of the new "VALET" blade a short time ago was greeted enthusiastically by men everywhere. It marked the dawn of a new shaving era.

The popularity of this outstanding achievement has been without parallel in the history of shaving. Here's a blade that stands up to its task. Made of the finest steel that can be obtained. Handled by expert cutters from start to finish. Treated and tempered by the secret "VALETT" process—applying all the skill and knowledge—all the experiences with shaving problems extending over a quarter of a century.

This new "VALET" blade can be readily identified. Cut through the blade is the name VALET. Its outstanding superiority is apparent the first time you shave with it. Even the 15th shave with the same blade provokes enthusiastic comment, for this new blade enables you to obtain more shaves and better shaves than you ever had before. Users of Valet AutoStrop Razors who have tried these new blades claim they are even better than our old blades, which were always recognized as the best. Dealers everywhere carrying these new "VALET" blades tell us they have never seen the equal of the demand for these new blades among men coming to their stores.

Before it was a habit—Now it's a pleasure

Men who have used other razors tell us that shaving before was merely a habit—but since they adopted the Valet AutoStrop Razor—with the new "Valet" blade—now shaving is a genuine pleasure.

AND THE WORST IS YET TO COME

MYSTERY PLOT IN PICTURE AT LOCAL THEATRE

Those who are planning to attend a showing of "The Siren" at the Richmond Theatre, are in for two hours of exciting adventure and suspense. It would spoil the picture to reveal the plot. To whet the interest and increase the eagerness to see this Columbia Pictures film, we might mention a storm from which a pretty girl seeks shelter in a lonely cabin with a wealthy clubman, a fight in a burning building, a sensational murder trial and conviction as highlights.

"The Siren" is a picture set against a background of social events in which Dorothy Revier, in the title role, toys with the affection of young men to relax from the boredom of bridge, dances and dinner parties. She thought she was immune to love; but with her awakening comes the realization that she has been a dupe for a swindler and cheat. From this moment on there is plenty of excitement and daring situations.

Tom Moore has the leading masculine role which he handles in a finished manner. He is kept busy by Norman Trevor, as the villain, who is unrelenting in his persecution of the beautiful heroine, Otto Hoffman, as the butler and henchman of Norwood, is as crafty and sly as a human being can be. These four succeed in getting themselves tangled in a web of circumstances from which it seems almost impossible to escape. Then through a queer twist of fate the situation clears up and the story to tell any more would be to give away the plot of an interesting picture.

The story is intriguing, the cast is superb, the acting excellent, and there are thrills enough in the action to satisfy the most exacting. To say that you will enjoy "The Siren" is to put it mildly. Byron Haskin is responsible for the direction and has introduced many human interest touches into the picture. Other features include "Breezing Along," a Lloyd Hamilton comedy; "The Prince of Wales" and current news events.

Egypt Meets British Edict

CARIO, May 2.—Complete surrender to England's demands that the public assembly bill be withdrawn was seen tonight in the announcement of Premier Nubab Pasha that the terms of the British note are "satisfactory."

The deadline for the settlement of the controversy came at seven o'clock tonight, the British government having announced that if the bill had not been withdrawn it would take such action as it deemed necessary.

The Egyptian surrender prevents the suspension of parliament here, the measure taken in the past when the British government felt its rights in Egypt infringed.

SLAPSTICK IS ELEVATED IN LLOYD FILM

Harold Lloyd is one comedian who has elevated slapstick to such a high plane that even the most hardened critic can find no objection to it. And he has done it by giving his action a sincere twist that takes away from it any flavor of "humor." Take a look at "Speedy," for example, now showing at the California Theatre. This is his latest picture, and one of the fastest moving in his lexicon of great comedies.

Lloyd has broader action in this picture than in any he has attempted for some years, but he lifts it to an elevation of the highest merit because he has motivated every single piece of business with plausibility and sincerity.

The bespectacled comedian has done more for the comedy art than any other one performer before the camera. He does not throw a bit of business into a picture just for a laugh. Unless it is part and parcel of his story, it does not break into the picture. Lloyd discards more gags than most comics use, because they are illogical, and as he says, "dragged in without rhyme or reason, and intended to get a laugh, regardless of their bearing on the further development of plot."

"Speedy" is full of uproarious laugh situations. Restraint can be thrown to the wind while looking at this one, for every one else in the audience will be lacking in control of his adrenal glands, the glands that make one laugh.

"Speedy" is an hour of great mirth, and is a worthy addition to the list of best sellers Lloyd has been producing through these years.

Ann Christy is his leading lady in "Speedy," Ted Wilde directed. Other features include "News of the Air," "The Kiko Chama," and current news events.

BOULDER DAM WINS BACKING OF SEN. PHIPPS

WASHINGTON, May 2.—For protection of 65,000 people in the Imperial Valley, the United States should construct a great dam at Boulder Canyon in the Colorado river, Senator Lawrence C. Phipps of Colorado declared in a Senate speech today.

The flood menace is a national problem, Senator Phipps declared, and the national government cannot escape its responsibility for failure to act. If the turbulent Colorado is left free to overflow its banks.

For more than an hour the Colorado Senator interested the Senate with a strong array of facts on why the Boulder Dam legislation should be adopted without further delay.

The Senator's speech was a surprise to many of his auditors, because in past years he had opposed the legislation. He today disavowed charges made in the past that his opposition had been influenced by the large holdings he is said to possess in Western power corporations.

Widening the Telephone Horizon

IN the memory of many now living, Alexander Graham Bell predicted that the day would come when we could talk to other countries, even across wide expanses of water.

Bell's vision was made a reality when in 1926 New York and London spoke together in two way conversation. Since then, this service has been opened to the public between any point in the U.S.A. and Great Britain. Mexico has been brought into speaking distance. Important cities of continental Europe have come within our voice horizon.

Even more important, the Bell System in the United States now embraces 18,500,000 telephones—a growth for the past year of more than 750,000. This is measurable progress in widening America's telephone horizon.

By EDWARD M. RUTTENBER
Universal Service Fashion Expert
NEW YORK, May 02.—"Re-fill and fall back." Such is the command frequently heard in an exclusive Fifth avenue store where the owners have installed a free filling station for folks with patent cigar lighters.

So great is the popularity of the ornamental lighter today that the merchants are wondering what became of the old fashioned man who scratched matches on the seat of his britches or left a deep scar on the mahogany woodwork.

There is keen interest in the filling station supplied customers by the Fifth avenue store above mentioned and conspicuous among those lined up at the counter to have their lighters replenished, are society women, flappers, elderly ladies with young ideas, tired business woman who find cigars a solace, and other types peculiar to New York.

Jolly England Pokes Fun At U. S. Phrases

LONDON, May 2.—Linguistic fruit, closely akin to what is known along Broadway as the "razzberries" and in London's lingo by the more elite name of the "rawshberries," is being handed out by the Daily Express in a series of lessons exemplifying "American," as she is spoke!

The spicy puns directed at America's slang are contained in a series of lessons on foreign language which the London Journal has been publishing. The method of teaching foreign languages is to state a phrase in English, and then give its equivalent in the foreign language designated.

Thus, the English phrase, "Good morning, how are you?" is given the following translations:

French: "Bon jour, comment allez vous?"

German: "Guten morgen, wie geht es Ihnen?"

Italian: "Buon giorno, come sta?"

Spanish: "Buenos dias, como anda usted?"

And then, "Lo there. How's tricks? Or, 'Lo there. Whadyo know? (Spoken at half throttle)"

Likewise the English phrase, "Do you speak French. Just a little," goes through the linguistic mangle of French, German, Italian, Spanish and comes out in "American" as follows:

"Talk U. S. Yes, Buddy, just a bitful."

According to the newspaper's language lessons, the American version of Britain's own, "Porter, call me a taxi," is nothing less than, "Say Pete, call me one of those taxi guys."

Big Attendance At Celebration By Local Lodge

A program followed by dancing featured the get-together celebration held last night in Brotherhood hall by Richmond lodge No. 13, Knights of Pythias in honor of District Deputy Harold Alt, whose term of office expires soon.

Visitors from Marinette, Plover, Pittsburg, Crockett, Redox, Oakland and San Francisco and local members and their friends were present. More than 250 persons attended.

No celebration.

Charles J. Donnelly led the community singing throughout the evening. Program numbers interspersed the singing. R. J. Milovich of the fire department played a number of accordion solos which were well received. J. R. Patterson, also a member of the fire department entertained the gathering with humorous German monologs. R. D. R. Tor presented a blackface monolog and A. L. Paulsen presented a blackboard number during a Chinese monolog that was greatly enjoyed.

D. S. DeLaney, W. Long, J. Oppman, A. W. Parker and C. C. Cozby were the committee in charge of the celebration. Refreshments were served during the dancing.

Baptist Church Names Officers

The annual meeting and Fellowship dinner was held at the First Baptist church last night in the social hall. Reports for the year showed a gain of 61 new members. The treasury report showed that aside from the building bonds that were handled by the bank there is about \$10,000.

The annual election of officers resulted in H. O. Watson, Mrs. William Beck and Mrs. French being elected to the board of trustees. Carl Longacre, E. Christensen, E. A. Baker, E. A. Argensinger, S. A. Blount, E. Linsed, and Mr. Baskett were elected deacons. The deaconesses for the coming year are the messdames W. H. Phillips, E. Linsted, H. O. Watson, Grover Blakely, Baskett and Chris Brown. C. E. Parker was reelected for Sunday school superintendent. Miss Pauline McArthur is to take up the duties of church clerk. Bert Busow was elected treasurer. London Girl Spurns Orthodox Pre-Nuptial Party, Holds 'Stag'

LONDON, April 28.—Miss Dorothy Russell-Gregg has decided to be original in the little matter of pre-nuptial plans. About to be married to Dr. R. J. Irving Bell at St. George's, Hanover Square, this beautiful London society girl has spurned such trivialities as the newly advised "Hag" party for wedding, and has turned to the novel device of giving a party to twelve of her erstwhile boy friends.

The bridegroom, of course, is not to be included among the guests.

Miss Russell-Gregg declared her novel entertainment was being staged in all seriousness. She said she was inviting twelve of the men she has gone to parties with heretofore to be her guests in one last pre-marriage party, and that was all. But, after declaring that "this is not a final

thing before leaving the portals of single-blessedness," she added in explanation:

"It is just a party of twelve men who have always been my good friends. We are all going to a West End cocktail bar, and from there we shall go on to a restaurant in Soho and dine and make merry."

"I decided to give this party long before I heard about the 'stag' party a short time ago, at which a bride entertained her woman friends. As I am inviting only men friends, I will call mine a 'stag' party."

"My prospective husband knows all about my plans. I cannot say the same of his, although I believe he is planning to arrange a similar party for his lady friends."

TRAVEL FATAL TO ART WORK, SAYS CRITIC

PARIS, May 2.—"The American artist's place is in the home," says Albert Gallatin, well-known art collector and critic, and authority on contemporary artists.

"All the American artists that I know of would have been much better off if they had never seen 'Montparnasse' or 'Montmartre'."

"Travel is fatal to their best work. They dabble here and they dabble there, picking up a few ideas of a great master and losing all their own original touch."

"Every time I came to Paris I meet with artists who have lost themselves in this foreign atmosphere and as a result are accomplishing nothing worth while. They have tried to forget the spirit of the American scene, they could do the best."

"I am constantly advising our artists to return home. What would Leonardo da Vinci have done in Chicago? Naturally, there are some exceptions, but early atmosphere and impressions cannot be overlooked."

Gallatin reminds one that there are splendid artists in America, who have never forsaken their own soil, artists who are working to show the overwhelming greatness of the American scene; they know so well. John Marin is one of them, whose water colors can scarcely be surpassed. Charles Demuth, Charles Burchfield and Alexander Brook are other American leaders who have not left home."

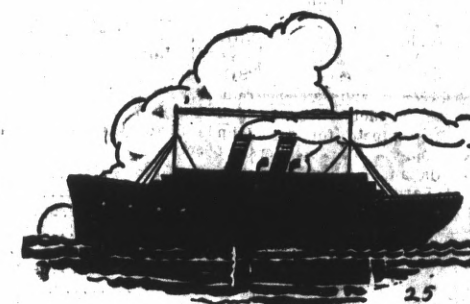

Another link with the more spontaneously gay and abandoned Paris of pre-war days has been snapped by the death of Charlie Baker, the colored man from Savannah, who brought "ragtime" to the French capital. Charlie, as he was familiarly known, was one of the greatest attractions in the Montmartre establishments before the war, he and his band playing at L'Abbaye, in the Palace Pigalle.

He introduced to Paris the famous song, "Alexander's Ragtime Band." One night the Grand Duke Alexander of Russia entered. "That song was composed especially for you, duke, and rumor said that the Grand Duke responded with 1,000 francs tip."

SCHEDULE FOR JUNIOR LOOP FRAMED TODAY

With indications that at least 18 teams will be entered in the American Legion's junior league, a committee headed by W. L. "Doc" Seawright, city recreational director and general manager of the league, will meet in Hotel Carquinez to map a schedule and arrange final details for the opening games.

W. A. Audrey, of the Standard Oil, and former big leaguer, will also be present to lend assistance.

Nearly a dozen teams already have entered the lists, with other organizations planning to sponsor teams.

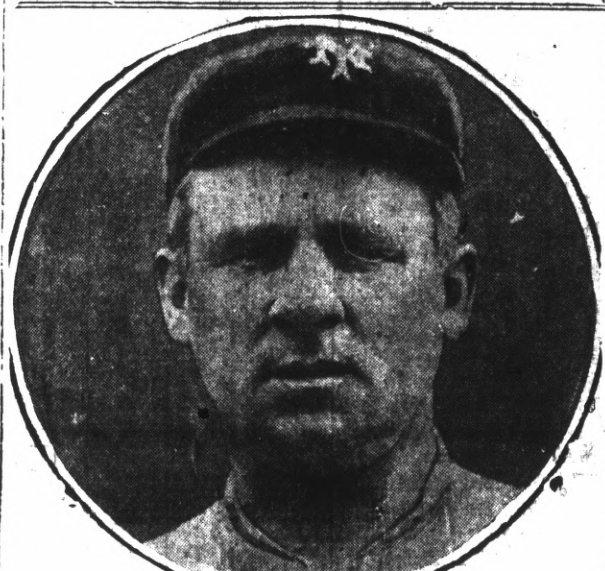

Richmond youths under 17 years of age are eligible to play on the teams.

Elimination tournaments will be held throughout the state and nation, the winners to play for the championship in Chicago or some other midwestern city.

Headed by John A. Miller, a committee including Postmaster James N. Long and Charles St. John of the Legion has been at work to raise funds to purchase equipment for the various teams.

All contests will be played on Saturdays, the losers to retire each week, and the winners to continue to the finals. Games will be played at First street, Nichol and Santa Fe field.

RICHMOND HI WINS COUNTY TRACK TITLE

Richmond Union high school track and field men proved their mettle at Concord yesterday, smashing one county record and emerging victorious by a count of 67 to 50. Almonte was high point man for Coach Hill's cohorts, rolling up a total of 10 points by taking first places in the 220 and 100-yard dash.

Bumgarner shattered the county record in the pole vault by clearing the bar at a height of 11 feet. By virtue of its victory yesterday, Richmond high holds the unofficial championship of Contra Costa county. The title is unofficial because the local school is not affiliated with the county league.

Reid Bullock won his match in three straight sets; Don Seawright and Burwell Stone lost a double; Warren Brown and Peterson won their double, and Clifford Fallon lost his single.

SANTA FE IS WINNER OVER MALIK TEAM

The City League opened last night with a blaze of glory in First Street park with the Santa Fe and Malik teams clouting the ball around the field and with the Richmond team winning by a score of 7 to 1.

Peacock on the mound for the Santa Fe pitched a wonderful game, holding the opposing team to three hits and fanning nine. Salvia opened for the Malik and while the Santa Fe's chalked up eight hits, it was not his fault as much as poor fielding support that did the work. In the fourth inning, the Malik, ran in Campagna who managed to keep the Santa Fe's down to no hits.

It was a gala event, the Richmond Union high school band was in the grand stand pounding out the music before the game started. Managers of rival teams, members of the league, were on hand to see what to expect. There were no home runs, but both teams connected for a flock of doubles.

For a time it looked as though bloodshed was to be the special brand of entertainment for the day. Kelly, on third for the Malik, stopped a batted ball with his face and later in the game, Kane got hit on the head. However the casualties were not fatal and both stayed in the game.

Spike Elder did the umpiring in his usual fashion, satisfying most of the crowd that gathered to witness the opening game. The season has started. Tonight, fans are promised the thrill of their lives as the Richmond Sannies and the Douglass Hardware teams will clash for supremacy in their first game. Both Phil Jones and Archie Douglass are out to have their teams win.

Semi-Finals To Be Played

The semi-finals of the championship flight of the President's Cup Tournament at the Contra Costa Golf club will bring together next Sunday two of the best players of the club in a match that should be thrilling from start to finish. Jack Gribbin and Bill Owsley, both of Crockett, are in the contestants. Both can shoot bar golf under competitive strain and each will make every effort to go over the top with a win in order to enter the finals which will decide the 1928 club champion.

In the lower half of the same flight, M. Mitchell of Martinez meets George Altman of Crockett. Mitchell's playing throughout the tournament has been exceptional, with outstanding defeats of Wm. Lewis, the 1927 champion, and J. Randall, the runner-up in the qualifying round. He will make every effort to continue his string of victories by taking George Altman into camp.

Although handicapped by a knee to protect an injured right arm, Curtice took second in the javelin throw against Stanford, by tossing the spear 137 feet 5 in.

Robert Louis Stevenson, first baseman on the California baseball team for the last two years, was chosen to lead the Bear nine next season. He is registered in the College of Letters and Science from Oakland.

Stevenson in addition to being an excellent first sacker, is a heavy hitter, ranking second in batting averages for the season just closed. He was an important factor in bringing the Bears to the top of the California intercollegiate baseball association.

TOUGH TILT IN STORE FOR SANNIES TODAY

A strained atmosphere will surround the First street grounds this afternoon when the R. B. Douglass and Richmond Sannies clash in the second contest of the city league. Both teams are out for blood, and plenty of gore is expected to be spilt in the form of crashing base hits.

Manager Archie Kenble of the Douglass has rented a building at 308 Macdonald avenue, where his players can change clothes, he announced yesterday.

Either Kamb or Battalbach will do mound duty for the Douglass.

Meanwhile Manager Phil Jones of the Richmond Sannies has groomed his men carefully for the contest, which commences at 5:15 this afternoon. A win Sunday over the fast Utah-Idaho All-Star club has given the Sannies the necessary confidence to start the season correctly, according to Jones.

STATE AID IN DAM ERECTION IS WELCOMED

Superintendence by state officials of all dams constructed in California, whether built by public or private enterprise, is eminently proper, and the East Bay Municipal Utility District will welcome such supervision, always having in mind that the men in charge of this responsible work ought to be unopposed to the desire of the state to lay people to own their own water system or to public ownership of water supplies, it was pointed out by Dr. George C. Pardee, president of the Utility District.

"It is important that the supervision and superintendence of the dams must not be put in the hands of men who are known to be against public ownership or who are for any reason opposed to the desire of the people of the east bay to own their water supply," said Dr. Pardee.

Dr. Pardee declared that the failure of the S. Francisco dam in Southern California had been taken by enemies of public ownership in an effort to show that public ownership of dams are more of a menace than privately constructed ones and declared this to be false.

Amnesia Victim 'Finds' Self In L. A. Hospital

LOS ANGELES, May 2.—Science has cleared the clouded brain of "John Doe, amnesia victim," in a hospital here and today he identified himself as Edgar T. Mut, 44, who lived in Ziland place, Baton Rouge, La., with his wife and four children.

Mut came to the police station Saturday night. He said he did not know who he was, but realized he was in a strange city. Believing he would recall his name, nothing was done about his case for several days. Then Dr. Samuel M. Marcus, a psychiatrist, was called in.

Dr. Marcus put the amnesia victim to sleep and then, as he explained it, "talked to his subconscious mind." Newspaper men present asked the victim questions but he did not respond. Dr. Marcus repeated the same questions and answers were forthcoming.

Mut, speaking through his subconscious mind, said he was beaten by two negroes in Baton Rouge two days after Easter. He recalled going down for several days with a dizzy feeling in his head. From that time on he said he remembered nothing.

Says Plane Fare To Soon Compete With Railroads

LOS ANGELES, May 2.—Two years from now it will be a common practice for a business man to step into a 100 passenger airplane and fly down to wherever big city in America happens to be his destination.

The prediction was that today of Edward S. Evans, a Detroit millionaire. Evans began his journey from Detroit in an airplane and got as far as El Paso, where it crashed, but that did not dampen his ardor for flying.

"The only reason business men don't use airplanes now is that it costs about double the price of a railroad ticket," said Evans. "That will be overcome within two years. One hundred passenger airplanes will be common then. A French company is building a 100-passenger plane now and the Ford company is planning a similar plane for this country."

Power Company To Illuminate Airway Beacons

In the further development of aviation the United States Government through the Department of Commerce has signed a contract with the Pacific Gas and Electric company whereby the company is to immediately proceed with the furnishing of electric energy for the lighting of airway beacons.

The beacons on the San Francisco-Los Angeles airway are now installed and electric power lines are being run to serve this series, of which there are six between San Francisco and a point north of Livingston. This installation follows the recent lighting of the Diablo beacon with its 10 million candle power light. On the San Francisco-Seaside airway there will be 16 beacons between San Francisco and Redding. On the San Francisco-Salt Lake route there will be 22 beacons between San Francisco and Blue Canyon. In the Sierras. The lighting of the San Francisco-Los Angeles route will include emergency landing field lights at Westley and Livermore. On the San Francisco-Seaside route there will be emergency field lighting at Capay, Williams and Willows with beacon lighting at Woodson Airport, Corning and Red Bluff Airport. On the San Francisco-Salt Lake airway there will be field lighting at Concord, Fairfield, Auburn and Blue Canyon, with a beacon light adjacent to the Roseville Airport.

These beacons and the emergency field lighting will provide a continuous visible line of flashing signals for the aviators (through the chain of beacons, which will be spread) at approximately 10 mile intervals.

MAN MEETS DEATH IN TRAIN TUBE

Trapped in the Franklin Tunnel, near Glen Frasier, Jesus Morales, 35, railroad section hand, was mangled to death by a Santa Fe train Sunday night. It was disclosed yesterday with the discovery of his body.

Jack Slinger, railroad labor foreman, discovered the section worker's body in the bore after a two day's search, instituted after Morales failed to return to his Glen Frasier camp after visiting Sunday at another Santa Fe camp at Christie. The body was turned over to Deputy Coroner John Connelly at Martinez.

Slinger informed Connelly that Morales left the Glen Frasier camp Sunday morning and was expected to return that night. A search was instituted Monday but it was not until last night that his body was discovered.

On his return to his camp Morales was trapped in the bore by a train he apparently did not know was due.

Morales was a native of Mexico and is survived by a family residing in El Paso, Texas.

A New Arctic Record with RICHFIELD

First to pilot an airplane across the top of the world!

FLYING from Point Barrow, Alaska, to Spitzbergen—2300 perilous miles of icy, uncharted wastes, Captain George H. Wilkins and Lieutenant Carl B. Eielson have written a thrilling new chapter in Arctic and aviation history—a feat of which Roald Amundsen said, "No flight has been made any where at any time which could be compared with it!"

Captain Wilkins used Richfield exclusively! He pinned his faith in this thrilling flight on a single, Wright Whirlwind motored, Lockheed Vega monoplane powered with Richfield aviation gasoline, the third successive year of his Arctic explorations with California's famous "gasoline of power."

Use Richfield products in your own car—recommend them to your friends. Richfield actually does give you greater speed and power with our sacrifice of mileage. Its anti-knock qualities make it the perfect gasoline for the newer high compression motors.
